💼 Objective:
Energetic and fast-learning full stack developer with growing Web3 experience. Passionate about building efficient, real-world dApps and joining teams that push the future of the internet.

⚒ Skills
• **Frontend:** Angular, Vue.js, React, Tailwind CSS, Bootstrap

• **Backend:** PHP (Laravel), Node.js, MySQL

• **Tools:** Git, GitHub, VS Code, Postman, Firebase, Vercel

• **Web3**: Familiar with blockchain concepts, smart contracts, and decentralized applications (dApps)

🖥 Education

B.TECH Computer Engineering (2021-present)
Ladoke Akintola University of Technology.

▣ Projects

Currently developing micro-projects to demonstrate proficiency in Web3 technologies.
