🌐 SUMMARY

Passionate and self-driven Full Stack Developer with real-world experience building functional, responsive web apps. Solid understanding of both frontend and backend tech. Obsessed with clean UI, smooth UX, and efficient code. Always learning, always building. Open to **internships**, **freelance gigs**, and **collaborative tech projects**.

⚒ TECH STACK

Frontend: React · Vue.js · Angular · NextJS · Tailwind CSS · Bootstrap
Backend: Node.js · PHP (Laravel) · MySQL
Tools: Git & GitHub · VS Code · Postman · Firebase · Vercel

🚀 PROJECTS

- JobNet *(In Progress)*
Building a full-stack job portal with user authentication, job applications, and dashboards for both users and admins.
Stack: Angular · PHP · MySQL

- Bank Web App
Developed a lightweight React app for deposits, withdrawals, and transaction tracking. Local storage for persistence. Uses Redux for state and localStorage for persistence.
Stack: React · Redux · CSS

- Personal Portfolio (2025)
Mobile-first, fast loading and clean portfolio site showcasing my dev skills, projects, and goals.
Stack: React · Tailwind CSS · Vercel
